Forestry contracting

Tree felling, timber extraction and haulage of hardwood and softwood timber.

Timber purchasing

Top prices paid for all species of hardwood and softwood timber, standing or felled.

Fence erection

We can recommend fencing contractors to erect all types of fencing.

Timber treatment

Fencing panels are treated by total immersion in protek panel dip. All timber used outside and especially timber used in or on the ground is treated using a vacuum process to ensure a maximum life span. When dry all treatments we use are safe and harmless to plants, animals and humans.
